Youssef Mohamed

Data Enthusiast. Aspiring Data Analyst

About Me

I am Youssef, a data analyst who specializes in turning data into actionable insights using tools like Excel, SQL, Python, and Power BI. I have experience in analyzing complex data and supporting strategic decision-making. My passion is extracting real value from data to help businesses grow and make smart decisions.

Education

1 **Faculty of Artificial Intelligence NMU**

Currently pursuing my second year of study, specializing in the application and development of AI technologies.

2 **Hands-On Experience**

Focus on practical application and real-world projects, gaining valuable experience in AI development.

- Excel, Power BI, Tableau.
- Data cleaning, processing, and Visualization.
- Dashboard Creation: Interactive and Visualization Reports.

Team Leader

Lead a team of developers in the successful completion of multiple projects, fostering a collaborative and productive environment.

Made with Gamma

Projects

1

Sales Analysis

Analyzed detailed sales data for Q4 using Excel. The dataset included orders, geographical areas, sales representatives, items, prices, quantities, and discounts.

· Used Pivot Tables and Power Pivot to:

· Build an interactive dashboard showcasing revenue and net profit by region and sales representative.

· Analyze the performance of top-selling products.

· Calculate the financial impact of taxes and discounts on overall revenue.

Deliver actionable insights for improving sales strategies.

Tools Used:

Excel (Pivot Tables, Power Pivot)

Statistical Analysis Skills

Results:

Identified high-performing regions and their most profitable products.

Provided clear insights into challenges and opportunities to boost revenue.
